

# Messages for Japanese Investors from the Western Parkland Councils

The Western Parkland is a thriving region of economic opportunity and environmental wonders. Surrounded by enviable World Heritage-listed landscapes and full of bustling towns and centres, it is one of the fastest growing regions in Australia.

The Australian and New South Wales governments have come together with the eight Western Parkland Councils to deliver transformative change to the region.

The Western Parkland will soon be one of Australia's most connected regions, with innovative public transport and digital infrastructure connecting it to the world.

The Western Parkland Councils are keen to continue our collaboration with Consul-General of Japan Keizo TAKEWAKA and invite all Japanese businesses to discuss the ample opportunities our growing region has to offer.
